# Wire Journal International 1988 article index

*Companies or individuals may arrange for reprints by contacting Wire Journal at Wire Association headquarters.*

### Anniversary special

"A special relationship—of sorts," Dick Callahan; April 1988, p. 41.

"Before the Wire Journal," Urb Malo; April 1988, p. 49.

"20 years of Wire Journal," Joseph A. Offredi; April 1988, p. 56.

### Archival report

"The first robots: an archival report covering the period 1840-1870," Donald Sayenga; September 1988, p. 28.

"Advent of the high-speed rod mill," Donald Sayenga; December 1988, p. 53.

### Automation

"Productivity in the cable industry," Olli Sylvanne; June 1988, p. 36.

"Automated factory: hot-rolled through spooling, unattended," Lars Hagstedt; December 1988, p. 44.

### Chemicals and coatings

"Basic tribology and implications for the nonferrous industry," Ronald Re..h; May 1988, p. 42.

"Cost-effective wastewater treatment technology," Dr. Jeffrey V. Dagdigian; May 1988, p. 57.

"Polyethylene silane copolymers as new low voltage insulation systems," Laurence H. Gross; November 1988, p. 59.

### Company profile

"European metals refinery develops copper processing technologies," Robert F. Dixon; July 1988, p. 34.

"Morgan Construction Co.: 100 years old and building for the future," Robert F. Dixon; August 1988, p. 26.

"Baltimore copper rod mill gets new lease on life," Robert F. Dixon; November 1988, p. 23.

"Cablec on the move," Robert F. Dixon; December 1988, p. 17.

### Continuous casting

"Automated continuous casting," Paul K. Raiford Sr. and Lucien Bournez; February 1988, p. 53.

### Copper rod

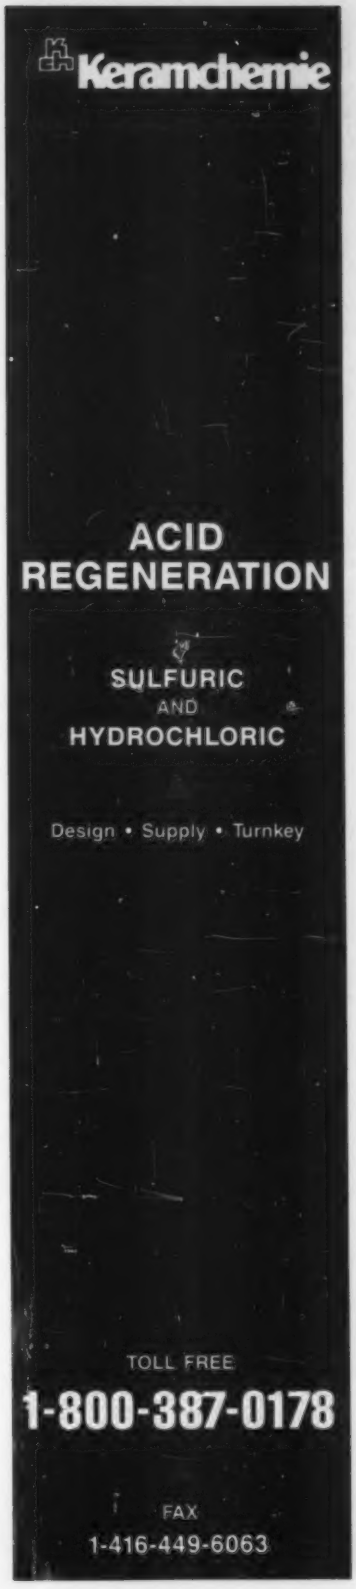
"On the origin of twist test cracks in copper rod," Horace Pops and George Kingsbury; January 1988, p. 58.

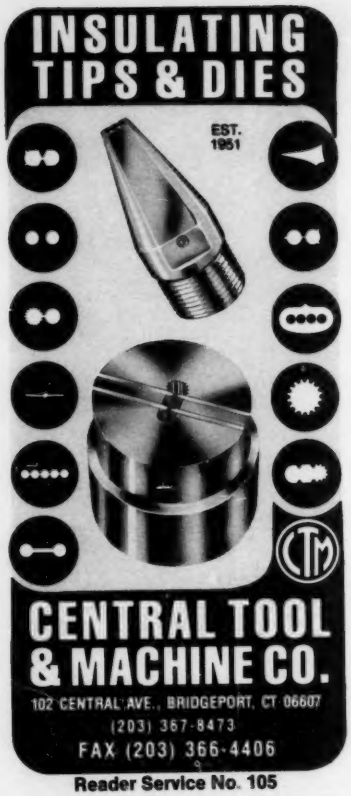
"Ferrous inclusion detector for improved copper rod quality," Rick Miklasiewicz and Sharon Young; April 1988, p. 96.

### Dies

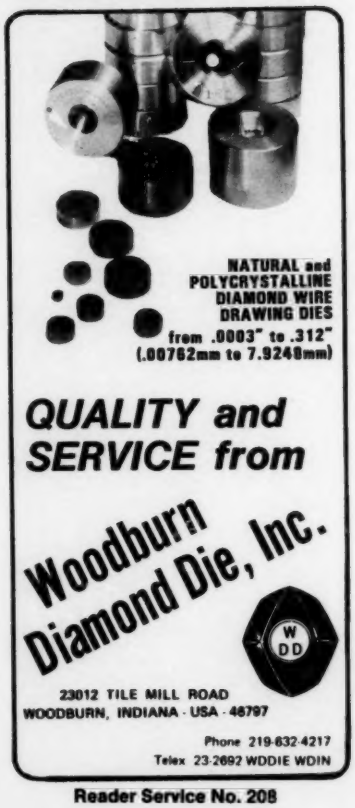
"Experimental testing and numerical simulation of temperature field in dies for dry steel wiredrawing," Nagib Neimarlija; January 1988, p. 74.

"Wiredrawing dies: industry improvements," H. Steele Price III and L. Vance; May 1988, p. 63.





Reader Service No. 105



Reader Service No. 208

"Changes mark year in Fort Wayne dies industry," staff report; December 1988, p. 24.

## Editorial

"Cooperation key to Interwire success," Robert F. Dixon; January 1988, p. 4.

"The size and shape of the wire industry," Robert F. Dixon; February 1988, p. 4.

"Time to re-think your export potential," Robert F. Dixon; March 1988, p. 4.

"Our twentieth year," G.R. Munger; April 1988, p. 4.

"Merger mania II," Robert F. Dixon; May 1988, p. 4.

"Trade bill kicks off election debate," Robert F. Dixon; June 1988, p. 4.

"Wire 88's lessons," Robert F. Dixon; July 1988, p. 4.

"Screaming into the night," Clifford D'Addetta; August 1988, p. 4.

"The right place and time," Robert F. Dixon; September 1988, p. 4.

"Preparing for 1989," Robert F. Dixon; October 1988, p. 4.

"How are you doing?," Robert F. Dixon; November 1988, p. 4.

"Upgrading our technology," Robert F. Dixon; December 1988, p. 4.

## Electrical wire

"Effect of processes of drawing on torsional property of high-tensile strength Invar alloy wire," K. Hamada, Y. Yamaoka, H. Tsubono and Y. Kawabata; April 1988, p. 84.

## Fiber optics

"Armored fiber optical cable for subscriber use," William Busch and Kenneth Bow; October 1988, p. 35.

## Fine wire

"Manufacturing of intramuscular electrodes with ultrafine stranded wire," G.D. Bibel, T.P. Kicher and R. Zriek; December 1988, p. 27.

## Guest editorial

"WISA diagnostic study is first step in tackling decline," Harry W. Buzzerd Jr.; January 1988, p. 16.

"WISA study shifts to market-driven approach," Harry W. Buzzerd Jr.; March 1988, p. 16.

"Wire suppliers focus on customer needs," Harry W. Buzzerd Jr.; May 1988, p. 16.

"Let's shed some light on wire and cable exhibitions," John C. Ramsey; July 1988, p. 16.

"Product liability: a WISA issue," Harry W. Buzzerd Jr.; November 1988, p. 12.

## Market analysis

"Future trends in the steel industry," William T. Hogan, S.J.; February 1988, p. 35.

## Measuring and testing

"Practical considerations in measuring wire die diameters," Larry Corbin; June 1988, p. 46.

"Combined eddy current and magnetic induction testing of nonferrous wire for cracks and ferrous inclusions," Patrick W. Sansieri; October 1988, p. 51.

## Meetings and exhibitions

"Interwire 87 draws nearly 8,000," staff report; January 1988, p. 28.

"Wire 88: a preview," staff report; March 1988, p. 53.

"Wire 88 attracts 24,000," Robert F. Dixon; July 1988, p. 40.

"The 58th Annual Convention and Exhibition of the Wire Association International," staff report; September 1988, p. 38.

## Power cable

"Power cable: a cost analysis," Frank Miller; February 1988, p. 40.

"Current trends in medium-voltage primary underground power cable," George K. Raikos; August 1988, p. 31.

## Production control

"Scheduling the factory of the future for a quality product," Jerry E. Richardson; February 1988, p. 74.

"Bar code opportunities for the wire and cable industry," Robert H. Lounsbury Jr.; November 1988, p. 50.

### Quality control

"Quality improvement of wire processing through integrated technology," Thomas C. Renner; March 1988, p. 33.

"Use of SPC in the manufacture of a high-carbon hose clamp," Bruce Rudin; March 1988, p. 43.

### Steel wire

"Engineering brass coatings by sequential plating," T.W. Starinshak, R.M. Shemenski and G.E. Hammer; July 1988, p. 45.

"Making quality steel wire at optimum productivity," Zeev Zimerman; August 1988, p. 50.

"In-line wiredrawing in an oil-tempering operation," Brian O. Lanier; October 1988, p. 63.

### Steel wire rod

"Microalloyed high-carbon wire rod," M. Korchynsky; September 1988, p. 129.

"Influence of secondary steelmaking on occurance of non-metallic inclusions in high-carbon steel for tire cord," Y. Shinsho, T. Nozaki, K. Sorimachi, E. Yamanaka, K. Suzuki and K. Nakanishi; September 1988, p. 145.

"Removal of hot rolled wire rod surface defects by scalping," Dr. David M. Schmid; December 1988, p. 37.

### Superconductivity

"Opportunities for wire manufacturers in the field of superconductivity," Angelo Gattozzi; October 1988, p. 45.

### Trade

"The political environment of trade," Michael T. Kelley; February 1988, p. 46.

"U.S. wire producers split on VRA extension," Robert F. Dixon; April 1988, p. 72.

"The cause of the 'crisis' in steel," Robert W. Crandall; May 1988, p. 34.

"Commerce Department set to pursue copper trade issues in June meeting," Clifford D'Addetta; June 1988, p. 28.

### Wire Association news

"Publish or perish," Neville H. Simpson; February 1988, p. 16.

"Wire Association divisions to meet in Cleveland," staff report; March 1988, p. 27.

"58th Annual Convention general program," June 1988, p. 27.

"Wire Association announces tours for October convention in Toronto," staff report; July 1988, p. 27.

"Wire Association combined Spring Meeting draws 443 in Cleveland," staff report; July 1988, p. 30.

"Two plant tours added to 58th Convention schedule," staff report; August 1988, p. 45.

"Tentative technical papers listing announced for Toronto convention," staff report; August 1988, p. 46.

"Welcome to Toronto," Bernie Rosevear; September 1988, p. 14.

"Wire Association recognizes 25-year members," October 1988, p. 16.

"Defining our objectives," J. David Beneke; October 1988, p. 20.

"Fiber Optics Section update," staff report; October 1988, p. 22.

"Fortieth 'Clockwinding' rekindles friendships," Clifford D'Addetta, November 1988, p. 31.

"1989 committee rosters," November 1988, p. 37.

"An era of harmony," Jack B. Salt; November 1988, p. 10.

### Wire machinery

"MRB in the USA," Robert F. Dixon; June 1988, p. 32.

### Wire rope

"CIM: tools for survival in the wire rope industry," Fred W. Donecker; March 1988, p. 90.

"Roping the Brooklyn Bridge—the second century," Douglas P. Carlson; April 1988, p. 76. ■
